Not sure which list you need?

Tell us what is bothering you or what you would like to change, and we will point you to the right practitioner. Every price is confirmed at your consultation, before any treatment begins.

AESTHETICS

Price list

Deciding on a treatment should never feel like guesswork. Every price is here, set out by what you would like to address, so you can see exactly what is involved before you commit to anything.

How our pricing works

A SINGLE SESSION
One appointment. Right for a facial, a top-up or trying something for the first time.

A COURSE
Most results build over several sessions, so we recommend a course for nearly every treatment. It keeps you on track, and each session costs less.

MAINTENANCE
Once you have your result, an occasional maintenance session keeps it. Your practitioner will tell you how often.

Not sure where to start?

Begin with a consultation. Your aesthetic practitioner will listen to what you would like to change, look at your skin properly and recommend a plan, with every price agreed before treatment begins.

Consultations are £43

A Skin Health Analysis with our advanced skin scanning technology is £50
